Description

Sun roof motor for Hyundai i30 (PD) MY2018

What is it

Certain batches of sunroof motors had incorrect software installed and may not have an automatic safety stop function. When the sunroof is closing, it will not automatically stop when it is obstructed.

What could happen

Without the automatic safety stop function, the motor will continue to close the sunroof glass, which may result in an injury to a person if a body part is caught between the glass and the sunroof's window frame.

What to do

Hyundai will contact affected i30 owners. Consumers will be instructed to take their vehicle to an authorised Hyundai dealership to have the vehicle inspected. If the sunroof motor is found to be faulty, it will be replaced free of charge.

For further information, consumers can contact Hyundai's Customer Care Centre on 1800 186 306, or find their local dealer at [www.hyundai.com.au/dealer](http://www.hyundai.com.au/dealer)

Tasmanian stolen vehicle information is currently unavailable from this service. For information about the status of Tasmanian vehicles, go to:

<https://www.transport.tas.gov.au/MRSWebInterface/public/regoLookup/registrationLookup.jsf> (Note: you will need to provide the vehicle registration plate number to search this site).

A stolen vehicle notification, or the absence of one, does not necessarily mean a vehicle is or is not stolen.

If there is a stolen vehicle notification you wish to enquire about, you should contact the police force in the State or Territory indicated immediately after the date in the notification. The reference number at the end of the notification should be quoted as a part of your enquiry.

Please note that there may be multiple stolen notifications shown. A stolen notification can be for a VIN, Plate, Chassis and/or Engine.

Vehicle information is requested from Austroads NEVDIS database for each transaction involving a vehicle VIN or Chassis Number on the PPSR. The data is not part of interests registered on the PPSR and it is presented without any guarantee regarding its accuracy.

The NEVDIS data is intended to assist users with checking that the VIN or Chassis Number they entered, along with information they have about the vehicle from other sources, is accurate and to provide users with any data held on NEVDIS about a vehicle's stolen or written off status.

State and territory road agencies are the source of NEVDIS data and the primary point of contact for enquiries, errors and corrections.

Access to and use of data provided through the PPSR is subject to the PPSR General Conditions of Use and applicable third party data conditions (which can be obtained at [www.ppsr.gov.au](http://www.ppsr.gov.au)). ### How to verify this certificate on the PPSR

You can use the search number from an original search (as shown on this certificate) to retrieve the original search results and to issue a copy of the search certificate at <https://transact.ppsr.gov.au/pps/Home>. There is no fee, however this process will not provide any update to the information in the original search.
